Author Index

Bell, E. T., 30
Bender, W., 253
Benjamin, A. C., 123, 224
Brown, J. F., 323
Carnap, R., 5, 359
Dewey, J., 237
Dubs, H. H., 482
Einstein, A., 163
Feigl, H., 20, 420, 484
Fisher, R. A., 99
Haldane, J. B. S., 78
Hartshorne, C., 446
Hoagland, H., 351
Kattsoff, L. O., 149
Lillie, R. S., 296
Malisoff, W. M., 1, 71, 130, 170, 249, 366, 398, 492
Morgenau, H., 118, 133, 486
Mayer, J., 338
Muller, H. J., 313
Norris, O. O., 460
Rashevsky, N., 176, 409
Reiser, O. L., 197, 352
Robinson, E. S., 246
Ruddick, C. T., 361
Singer, E. A., Jr., 273
Smith, H. B., 239, 369, 488
Struik, D. J., 50, 122
Weiss, P., 238
Wiener, N., 479
Zwicky, F., 353

Subject Index

Abstract Logic, or the Science of Modality, 369
Aristotelian Logic, validity of, 149
Assertion, meaning and proposal, 237, 359
Causality, meaning and scientific status of, 133
Discovery, scientific, mystery of, 224
Finite or Infinite?, 30
Freud and the scientific method, 323
Gestalt, time, space and, 197
Gestalt-problem, physico-mathematical aspects of, 409
Haeckel, views of, in the light of genetics, 313
Indeterminism and Natural Selection, 99
Induction, the logical character of the principle of, 20, 420, 484
Infinite, finite or, 30
Leibniz, 479
Logic, abstract, on the science of modality, 369
Logic, Aristotelian, validity of, 149
Logic and Physics, 118
Mathematical-biophysics, foundations of, 176
Meaning, assertion and proposal, 237, 359
Mechanism, beyond, and vitalism, 273
Method of theoretical physics, 163
Method in physics and psychology, parallel development of, 446
Modality, science of, or abstract logic, 369
Natural selection, indeterminism and, 99
Organismal Theory of Knowledge, 460
Philosophic Problems, On the character of, 5
Philosophy of Science, what is, 1
Physical coincidences and the scale coordinate, 253
Physico-mathematical aspects of the gestalt-problem, 409
Probabilities, on the foundation of the theory of, 50
Proposal, assertion, meaning an, 237, 359
Psychophysical problem, logical analysis of, 420
Quantum mechanics as a basis for philosophy, 78
Quantum theories, an examination of, 71, 170, 398
Scientific discovery, mystery of, 224
Scientific method, Freud and the, 323
Social science, scientific method and, 338
Space, time, and gestalt, 197
Theoretical Physics, the method of, 163
Theory of Knowledge, organismal, 460
Time, the chemistry of, 351
Time, space and gestalt, 197
Vitalism, beyond mechanism and, 273
Vital organization, problem of, 296
